### **FOCUSED SCHOOL RENEWAL PLAN (FSRP) Revised for School Year 2008-09 Revisions Included**

**School:** Hardeeville Junior High/High School

**District:** Jasper County

**Principal:** Dr. Carletha W. Youmans

**Superintendent:** Dr. Delacy Sanford

# **FOCUSED SCHOOL RENEWAL PLAN (FSRP) 2008–09 School Year of Implementation**

## **Rationale**

**Provide the rationale for the FSRP goals to be implemented during the 2008–09 school year, along with the expected outcomes.**

The 2007-2008 school year was the first year of operation for the Hardeeville Middle/High School and it serves students in grades 6-12. The high school is the focus of this Focused School Renewal Plan (FSRP). The students attending Hardeeville High previously attended Jasper County High School which was located in Ridgeland, SC. Jasper County High was the only high school in Jasper County to serve students in the Hardeeville and Ridgeland, SC area. The following overview of the Hardeeville High School students is based on student performance data from Jasper County High School.

Jasper County is a rural community established in 1912 and located at the southernmost tip of South Carolina. Jasper County experienced a 33.5% growth rate from 1990 to 2000 with a total population of 20,678 residents spread over 600 square miles. Household and per capita incomes grew at a greater rate than the state average in 2000, with Jasper County's median income rising 70% from \$18,071 in 1990 to \$30,727. Although Jasper County made progress in reducing the percentage of people living in poverty, dropping from 25.3% in 1990 to 20.7%, the county still lags behind the state poverty average of 14.1 percent. The 2000 census report also showed that of 7,025 total households, 73% had children under the age of seventeen. Of that seventy-three percent, 28% of the families with children under the age of seventeen are headed by a single parent. Based on county data, 34.8% of the adult population does not hold a GED nor do they hold a high school diploma, which affects the earning potential of many households and affects their ability to assist their children with homework. Less than 40% of parents attended parenting workshops as measured by parent sign-in sheets for 2005-2006.

Currently, Hardeeville High School serves 311 students in grades nine through twelve. The student population is made up of: 62% African American; 23% Hispanic; 14% Caucasian and 1% other. The average attendance rate is 96.8%. The number of students classified as disabled is 13.2%.

The number of students receiving free or reduced lunch is based on the student population in middle and high school. During the 2007-2008 school 71% of our students received free and/or reduced lunch. Currently for the 2008-2009 school year 80% of our students receive free and/or reduced lunch.

| 294 (88%)                               | 146(49)       | 148(51)      | 198(67)          | 21(7)        | 71(24)       | 4(1)         |
| <b># of Students Reduced</b>            |               |              |                  |              |              |              |
| 40 (12%)                                | 22(55)        | 18(45)       | 23(57)           | 1(2)         | 15(37)       | 1(2)         |
| <b>Total Free and Reduced</b>           |               |              |                  |              |              |              |
| <b>334 (71%)</b>                        | <b>136</b>    | <b>166</b>   | <b>221</b>       | <b>23</b>    | <b>86</b>    | <b>5</b>     |
| <b>Total # of Students Not Eligible</b> |               |              |                  |              |              |              |
| 134 (29%)                               | 77(57)        | 57(42)       | 79(58)           | 24(18)       | 30(22)       | 1(0)         |

The figures in data Chart 1 indicate that 334 students of the 468 students enrolled in both middle and high school received free and reduced meals. This data reflects that 71 % of the students at Hardeeville Middle/High School received free or reduced meals during the 2007-2008 school year; of that seventy-one percent 88% are free and 12% are reduced. A total of 294 students received free lunch with 146 being male and 148 female which equates to 49% and 51% respectively. Forty students received reduced lunch with 22 being male and 18 female equating to 55% and 45% respectively. Twenty-nine percent of our students are not eligible for free or reduced lunch. The 2008-2009 school year will be the first that all students in Jasper County Schools will be required to wear uniforms in grades Pre-K through 12.

| <b># of Students Not Eligible</b> |               |              |                  |              |              |              |
| 118 (20%)                         | 68 (58)       | 50 (42)      | 53 (44)          | 31 (26)      | 31 (26)      | 3 (3)        |

The figures in data Chart 2 indicate that 470 students of the 591 students enrolled for the 2008-2009 school year for both the Middle and High School receive free and/or reduced meals. This data reflects that 80 % of the students at Hardeeville Middle/High School are eligible to receive free or reduced meals; of that eighty percent, 89% are eligible for free and 11% are eligible for reduced meals.

The Hardeeville High faculty is composed of 27 certified teachers and 6 certified non-teaching faculty members. Three of the certified teachers are International teachers who are highly qualified in their content areas, however some require additional staff development in the areas of classroom management. There are currently two certified vacancies on our staff, one in Mathematics and one in Science.

Our data comes from the state level in the form of HSAP and EOCEP test scores. The Statewide assessments include the passage rate for the HSAP first attempt of students in their second year of high school, and End of Course Tests. The data in data chart 2 indicates that the number of students successful in HSAP first attempt increased from 2005 to 2007. Though we had increases in EOCEP subtests in 2006, 2007 reflects a decline in every subtest except the slight increase in Algebra 1. The data in data chart 2 indicated is data received from the previous student body of Jasper County High School. Hardeeville Middle-High School is in it's first year of existence, therefore we have no baseline data currently or for the past three years.

|   | <b>NA *</b>  | <b>92.8%</b> | <b>75.3%</b> |  | <b>2005</b>  | <b>2006</b>  | <b>2007</b>  |
|   |              |              |              |  | <b>70.5%</b> | <b>81.2%</b> | <b>62.2%</b> |

*In 2007 HSAP passage rates increased in ELA and Math.*

*In 2007 EOCEP students regressed in all subtests with the exception of Algebra 1.*

*The graduation rate in 2007 declined.*

*\*No EOCEP available for Biology*

Although the first attempt passage rate continues to increase we have a need to focus on those students who have not been successful on one or more parts of HSAP. In an effort to improve our longitudinal success rate of HSAP we are going to provide an additional course in HSAP Preparation in ELA and in Math. In addition we are providing after school tutorial and one-on-one assistance for students needing that support. The analysis of MAP data allows us to provide a longitudinal look at student's achievement over time. The use of MAP and HSAP data analysis is used to guide our instructional initiatives and prescribe for improving student achievement. These analyses along with teacher surveys identified the following areas of need: standards-based classroom assessment, writing across the curriculum, differentiation of instruction, computer assisted instruction and classroom management as focii in this focus school renewal plan.

| <b>Average</b>             |               | <b>21%</b> |            | <b>25%</b> |            | <b>57%</b> |            |

An analysis of MAP scores indicate that 57% of our students were projected to be below basic on PACT 2008 at the winter administration of MAP. Chart 5 indicate those areas that we need to focus our instructional efforts.

The school leadership team, data team, along with the faculty and staff as a whole spent numerous hours disaggregating data and reviewing instructional practices. The lack of success on EOCEP test in 2007, the high percentage of students failing one or more parts of HSAP (ELA and/or Math) and the drastic decline in on-time graduation rate in 2007 led us to conclude that these three areas become the focus goals for the 2008-2009 focus school renewal plan. The following goals were formulated from the aforementioned areas of focus.

**Focused Goal 1: By April 1, 2009 we will increase the longitudinal HSAP Passage rate of the students at Hardeeville High School from 62% (2007) to 93% (2009) as measured by Fall 2008 – Spring 2009 MAP data.**

**Focused Goal 2: By April 1, 2009 we will improve our graduation rate from 55% (2007) to 80% (2009) with all students successfully passing all parts of the HSAP as measured by Fall 2008 and Spring 2009 MAP data and the completion of all other graduation requirements..**

**Focused Goal 3: The projected number of students passing End-of-Course Tests (EOCEP) will increase in English I by 15%, and in Algebra I by 15%, as measured by Fall (2008) and Spring (2009) MAP data and increase Physical Science by 30%, and US History by 30% as measured by our district benchmarks assessments in November (2008), January (2009) and March (2009).**

The needs assessment conducted in 2007 indicated a need to improve parental participation and to actively involve parents in their children's education. In our plan we have included strategies for our goals that will improve parental participation in the process through goal setting and follow up conferences with the parents of students failing or in jeopardy of not graduating.

We have established the three Student Achievement goals indicated based on the absolute calculator to achieve expected yearly progress. The projected yearly progress is based on absolute calculation using data from Jasper County High School for the years 2005-2007. It must be noted that the data for the 2008 school year will be the first year of exclusive data for Hardeeville Middle/High School. If we achieve a longitudinal weighting of 3, with a HSAP first attempt pass rate maintained at 5, in addition to an on time graduation weighting of 4, and having an EOCEP rating of 1.37, this will allow us to achieve an absolute rating of 3.34 based on the absolute calculations which is a rating of average.

# School Timeline

Develop a yearly timeline (July 2008 – May 2009) by month that includes the following information:

**FOCUSED SCHOOL RENEWAL PLAN  
2008–09 School Year of Implementation  
Student Achievement Focused Goal**

**Focused Goal 1: By April 1, 2009 we will increase the longitudinal HSAP Passage rate of the students at Hardeeville High School from 62% (2007) to 93% (2009) as measured by Fall 2008 – Spring 2009 MAP data.**

| <b>Strategy</b><br>(List the processes/activities to fully implement the goal that will have a high probability of improving student achievement.) | <b>Person(s) Responsible</b><br>(Position/Name)   | <b>Start Date of Strategy</b> | <b>Indicator(s) of Implementation</b><br>(Explain how each indicator will be used to support the achievement of the goal, followed by the name of the person responsible for the documentation.)   |
|--|---|-------------------------------|--|
| Training of high school teachers on how to analyze and utilize both class and individual student MAP data to improve instruction.                  | Principal<br>Instructional Coach<br>Leadership Team<br>High School Teachers                                     | September, 2008               | <ul style="list-style-type: none"> <li>• Training in the use of data will be provided by school Leadership Data Team throughout the school year. The staff development calendar will forecast monthly training schedules.(Instructional Coach). Teachers will use this training in their weekly meetings in making instructional decisions. Data analysis will be reflected in lesson plans in the way of differentiation of instruction.</li> <li>• Weekly monitoring and feedback will validate the differentiation of instruction in lesson plan.(Administration).</li> <li>• Administrative weekly monitoring will observe the impact of data use in instructional decision making.(Administration)</li> </ul> |
| Identified students who are deficient on MAP will attend After School tutorials taught by highly qualified teachers                                | Principal<br>Instructional Coach<br>Lead Teacher<br>Highly Qualified teachers<br>High School Guidance Counselor | October, 2008                 | <p>Students identified as basic and below are provided additional instruction in reading and math based on current HSAP and MAP data. The instruction in the After School Program and Saturday School Program is based on the identified strand of the week.</p> <p>Teachers will maintain progress data for on-going assessment and evaluation of program success. Teachers will develop weekly lesson plans for after school based on test data. Lesson Plans will be submitted weekly to Ms. King-Johnson and Ms. O'Neal for review and monitoring.</p>   |
| HSAP Preparation classes will be provided during the school day to meet the needs of all students (27) who have failed portions of the HSAP.       | Principal<br>Counselor  | September 2008                | <p>Focused intervention will be provided for seniors identified as having failed one or both parts of HSAP.</p> <p>Reading, writing and math instruction will be provided daily</p>  |

|   |  |                 |   |
|---|--|-----------------|---|
|   |  |                 | <p>based on identified strand of the week.</p> <ul style="list-style-type: none"> <li>• Weekly monitoring and feedback will validate the differentiation of instruction in lesson plan.(Administration).</li> <li>• Administrative weekly monitoring will observe the impact of data use in instructional decision making.(Administration)</li> </ul>   |
| Subject specific mini HSAP-like assessments will be administered to all students in grades 10-11 and selected seniors on a bi-weekly basis.                       | Principal<br>Instructional Coach<br>Highly Qualified Department Chairs<br>High School Guidance Counselor | September, 2008 | Students' weekly assessments will be administered in the form of HSAP-like assessments to create uniform application of testing. Teachers will use the state website to locate standards based test items in social studies. (Weekly review of assessments, Ms. O'Neal) Teachers and administrators will analyze the data from the HSAP-like assessments weekly to guide instruction. Lesson plans will be analyzed by Ms. O'Neal and Mr. Pierce and written feedback will be provided to teachers and principal. Agendas of teams and departmental meetings will serve as documentation from weekly student conferences in adjusting instructional strategies. |
| A Mentor-Mentee Program will be implemented for the 9 <sup>th</sup> Grade Academy students in an effort to focus on the longitudinal and on-time graduation rate. | 9 <sup>th</sup> Grade Staff<br>Principal<br>Counselor<br>Science Dept Chair                              | October, 2008   | Individual student goal sheets signed by teacher and student will be submitted weekly to Ms. O'Neal (Instructional Coach). Information gained from weekly student conferences will be used to focus and differentiate instruction. Lesson plans will be analyzed by Ms. O'Neal and Mr. Pierce and written feedback will be provided to teachers and principal. Agendas of teams and departmental meetings will evidence the use of feedback from weekly student conferences in adjusting instructional strategies.  |

**FOCUSED SCHOOL RENEWAL PLAN  
2008–09 School Year of Implementation  
Student Achievement Focused Goal**

**Focused Goal 2: By April 1, 2009 we will improve our graduation rate from 55% (2007) to 80% (2009) with all students successfully passing all parts of the HSAP as measured by Fall 2008 and Spring 2009 MAP data and the completion of all other graduation requirements.**

| <p>5. Implement the CERRA Teacher mentor program supported by the SCDE. Provide ongoing professional development the best of the best from each school to become teacher mentors.</p> | <p>Director of Personnel,<br/>Rebecca Cooper<br/>Superintendent,<br/>Dr. Delacy<br/>Sanford</p> | <p>07/1/08</p> | <p>All research indicates that Mentoring provides support for new employers to a school district. All teachers receiving this support will enable the district to retain its HQ teachers instead of losing them to neighboring district. Partnering with CERRA ensures that our HQ teachers are receiving mentorship from HQ Mentors.<br/>Evidence: List of mentors trained and certified by CERRA. List of mentors who are actually mentoring new teachers who are HQ. (Evidence will be collected by the Director of Personnel.)</p> |

**FOCUSED SCHOOL RENEWAL PLAN**

**2008–09 School Year of Implementation**

**District Administrators’ Instructional Leadership Focused Goal to Increase Student Achievement**

**Focused District Administrators’ Instructional Leadership Goal 2:**

**By April 1, 2009 the district will ensure that:**

**Focused Goal 1: By April 1, 2009 we will increase the longitudinal HSAP Passage rate of the students at Hardeeville High School from 62% (2007) to 93% (2009) as measured by Fall 2008 – Spring 2009 MAP data.**

**Focused Goal 2: By April 1, 2009 we will improve our graduation rate from 55% (2007) to 80% (2009) with all students successfully passing all parts of the HSAP as measured by Fall 2008 and Spring 2009 MAP data and the completion of all other graduation requirements.**

**Focused Goal 3: The projected number of students passing End-of-Course Tests (EOCEP) will increase in English I by 15%, and in Algebra I by 15%, as measured by Fall (2008) and Spring (2009) MAP data and increase Physical Science by 30%, and US History by 30% as measured by our district benchmarks assessments in November (2008), January (2009) and March (2009).**

| <p align="center"><b>Strategy</b></p> <p>List the processes/activities to fully implement the goal that will have a high probability of improving student achievement.</p>   | <p align="center"><b>Person(s) Responsible<br/>(Position/Name)</b></p>                       | <p align="center"><b>Start Date of Strategy</b></p> | <p align="center"><b>Indicator(s) of Implementation</b></p> <p><i>Explain how each indicator will be used to support the achievement of the goal, followed by the name of the person responsible for the documentation.</i></p>  |

# **FOCUSED SCHOOL RENEWAL PLAN 2008–09 School Year of Implementation**

## **Title and Description of Each Program and Initiative Included in the FSRP**

Give the title and a brief description of each program or initiative that is included in the FSRP.

*Note: All acronyms should be preceded by the complete program title. For example: Measures of Academic Progress (MAP)*

### **Description of Program Initiatives**

**HSAP Prep Classes** – This program will be initiated for the purpose of supporting students who either failed the HSAP initially or is having difficulty in subject area classes. This support will be offered two to three days a week with a highly qualified teacher.

**Using Data to Improve Instruction - Book Study** – An identified area of need at Hardeeville Middle/High is student achievement. To that end a book study on how to effectively analyze and use data to improve student achievement will be one strategy.

**Teacher made - Mini HSAP Assessments** - These are very short HSAP-like assessments which will be given on a scheduled bases to determine how many of our 9<sup>th</sup> and 10<sup>th</sup> grade students are doing. The data from these assessments will be used to guide instruction as well as individual support for these students.

**Credit Recovery Classes - Will** be offered on Saturdays to those students needing additional credit to meet their on-time graduation schedule.

**BEST PRACTICES** – This will be an on-going professional development all teachers to maintain and familiarize teachers with appropriate and proven strategies for effective lesson delivery.

**HSAP After-school Tutorial** - Will be provided to skill deficient students as identified by MAP data. Students will receive additional instruction based on their areas of need. The tutorial schedule will be developed based on teacher recommendations and student assessment data analysis.

**USA TestPrep** – cable television network mathematics skills instruction

**Measurement of Academic Progress (MAP)** – academic skills assessment instrument
